The Red Vein Company

Safe, Instant and Effective

How does ThermaVein® work?

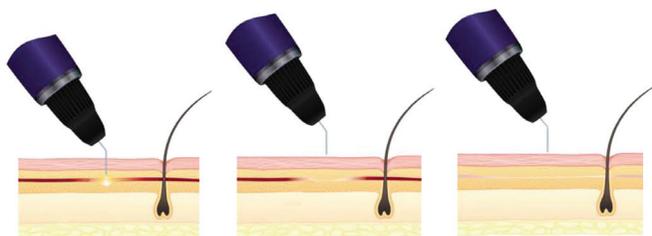

ThermaVein® is a Safe, Fast and Effective treatment for unsightly Thread/Spider veins often referred to medically as telangiectasia.

We use an insulated probe which, when applied to the skin causes the vein to empty. ThermaVein® then seals the vein by gently heating the proteins in the vein wall causing a seal. The body then naturally reabsorbs the vein making this an instant and effective treatment.

Tip: We always recommend a review after 6 weeks

Using a very low 4Mhz current ThermaVein® does not coagulate the blood, a mechanism used in other treatments, making it a very safe and sort after treatment, with minimal downtime for patients.

ThermaVein® is a time proven treatment that is used in clinics worldwide. ThermaVein® is fully CE compliant as a medical device to EEC directive 93/42 and is supported by clinic trials.

STEP 1:
Probe delivers a pulse of energy.

STEP 2:
Sealed area disappears.

STEP 3:
Process repeated along vein until clearance achieved.

Why ThermaVein®?

Amazing results

Safe, instant and effective

Minimal risk of skin damage

Clinically and time proven treatment

Safe alternative to IPL laser or electrolysis

Low 4 Mhz current

Worldwide network of clinical experts

Cost effective solution

NHC Clinics, Harley Street, London:

“I have used ThermaVein® for many years. It is the safest and fastest technique to make spider veins disappear. I have offered this procedure to several hundred patients with a very high satisfaction rate. No need for stockings, no need for any other additional treatment.”

Professor Nadey Hakim, MD, PhD, FRCS

Orchid Aesthetics Sunderland:

“Rarely in practice does a piece of equipment do ‘what it says on the tin’, ThermaVein® does exactly that and more.”

Sharon Sherriff, Bsc (Hons), RGN, Independent prescriber, Aesthetic practitioner

A B Facial Aesthetics, delivering results with ThermaVein®:

“What a truly remarkable machine and an excellent professional company that are an absolute pleasure to work with.”

Austin Brewer

Chaelis Clinic:

“ThermaVein® is great and brilliant. Minimal pain and excellent results.”

Lesley Spencer

Renaissance health and beauty therapy:

“ThermaVein® has been a great addition for my business. I had been very frustrated by the results on thread veins with IPL. ThermaVein® gives instant results and clients have been thrilled. Finally a machine that lives up to its claims.”
